Summary

Seasoned technology and business leader with extensive experience in creating, transforming and leading both large and small (technological) organizations. Passion for building up high performance, cross-functional and self-managed balanced teams (from scratch). Entrepreneurial mindset through my family's business. Open-source and machine learning evangelist with global reach. Big fan of agile practices, lean product development & extreme programming practices.

Highlights:

- I established and led Axel Springer AI (<https://ai.axelspringer.com/>), the artificial intelligence unit of Axel Springer SE, one of the largest digital publishing house in Europe
- Driving Axel Springer's change into a real "tech" company:
 - Established and managed the Axel Springer Tech Blog
 - Co-organized the Axel Springer TechCon 2019 which was the first installment of a group-wide conference within the Axel Springer group
 - Established a more open-source and research-driven mindset with several successful open-source projects e.g. imagededup 3k stars, image-super-resolution 1.9k stars etc.
- Turned idealo's data team from a pure cost center into a profit center e.g. monetizing our data for CRM campaigns which resulted in EUR 1m additional revenue in the 1st year and EUR 2m in the 2nd year
- Built up a new branch for my family's restaurant business, scaled up to EUR 2m annual revenue and 15 employees until I got bored
- (Keynote) speaker at several internal and external conferences e.g. WeAreDevelopers, PyData etc.
- Mentor for AI, (tech) products and leadership
- My (online) publications reach thousands of viewers: 76k+ followers on LinkedIn

Experience

- **Beams Safety AI** Berlin, GER
 - *VP AI/ML Research & Engineering* *08/2024 - Present*
 - Responsible for the AI/ML research and engineering team at Beams Safety AI
 - * Implemented a AI/ML strategy and roadmap for the company (from labelling, deployment to hiring topics)
 - * Built several ML models (from traditional ML to GenAI) and deployed them to production

- * Improved security, privacy and DevOps topics
- Working closely with the product and design team to prototype and implement new features
- Driving culture changes to make the company ship faster and more user-centric

- **Dat Tran Ventures**

Berlin, GER

Fractional CTO

01/2015 - Present

- Advising companies on various product & tech related topics such as:
 - * Technology (AI, data, cloud) & open-source strategy
 - * Culture & transformation (from old economy to digital)
 - * Capability and process building (central vs. decentralized organizations, research teams etc.)
 - * Building successful high performing (tech) teams with a clear strategy & mission
 - * And many more...
- Giving talks (both technical ones to keynotes), workshops and mentoring
- Some of my clients: Beiersdorf, Bertelsmann, Axel Springer, Sparkasse, Süddeutscher Verlag etc.

- **Philipps & Byrne**

Berlin, GER

Expert for AI/ML, Data & Software topics

07/2024 - Present

- Support on Tech DD on a variety of topics such as ML, AI, Data, and Software in general. Industries that I know well include E-Commerce, Retail, Media, Automotive, Airline, LegalTech, Banking, and Logistics

- **LegalLint**

Berlin, GER

CTO & Co-Founder

05/2024 - Present

- Side hustle in the LegalTech space together with my friend Dominik Wegener (M&A/VC lawyer at Linklaters)
- Built the product solo, from first idea to production it took me 8 weeks (2 weeks for prototype and 6 weeks to make it production-ready)
- Managed all product & technical stuff (company website, deployment, email etc.) and also involved in go-to-market

- **Priceloop GmbH - discontinued**

Berlin, GER

CTO & Co-Founder

10/2020 - 03/2024

- Built up a top-notch product & engineering team from scratch to develop our nocode pricing platform (scaled it to 20 people)
- Raised money with my co-founder (pre-seed and seed, were funded by Project A and Accel)
- Code code code and shipping products to our customers
- Discontinued the company due to the lack of product-market fit and worsened market conditions

- **Axel Springer SE**

Berlin, GER

Head of AI at Axel Springer AI

06/2019 - 09/2020

- Establish and lead Axel Springer AI, the artificial intelligence unit of Axel Springer SE, one of the largest digital publishing house in Europe
- My team's research focus was mainly on Voice (TTS & STT) and NLP topics. We also open-sourced several projects:
 - * TransformerTTS (Implementation of a non-autoregressive Transformer based neural network for text to speech.) - <https://github.com/as-ideas/TransformerTTS>
 - * ForwardTacotron (Generating speech in a single forward pass without any attention!) - <https://github.com/as-ideas/ForwardTacotron>

- * headliner (Easy training and deployment of seq2seq models.) - <https://github.com/as-ideas/headliner/>
- Driving Axel Springer's change into a real "tech" company:
 - * Established and managed the Axel Springer techblog
 - * Co-organized the Axel Springer TechCon 2019 which was the first installment of a group-wide conference within the Axel Springer group
 - * I'm the "face" of the new employer branding for technology within the Axel Springer group
 - * Represented Axel Springer internally and externally at several renowned conferences, podcasts, magazines etc.
 - * Established a more open-source and research-driven mindset
 - * Evangelizer for Tech & Product first

• **idealo internet GmbH**

Berlin, GER

Head of Data Products at idealo

10/2017 - 05/2019

- Co-head of the data team (25+ people) with a special focus on building up the data science/data engineering team (built up from scratch - hired 6 people within 9 months)
- Led the data science team directly where my team's research focus is on:
 - * Interpretability of deep learning models (mainly computer vision problems)
 - * Efficient deployment of machine learning models
 - * AutoML
 - * Data collection process (in-house labeling and external mechanical turk approaches)
- Selected projects of my team:
 - * We used deep learning to automatically rank millions of hotel images (300+ million) according to their aesthetic and technical quality which helped to improve the listing for small and mid-sized hotels
 - * We trained CNNs to automatically generate nice looking product galleries which reduced the workflow time of our content team by 75%
 - * We built a tree-based classifier to predict non-purchases of customers which helped our CRM team to target those customers three days ahead before we receive the actual sales data by the shops
- Provided technical and scientific guidance to senior team members and also our machine learning trainees
- Created the machine learning powered roadmap for idealo for both product and research
- Turned the data team from a pure cost center into a profit center e.g. monetizing our data for CRM campaigns which resulted in EUR 1 million additional revenue in the 1st year and EUR 2 million in the 2nd year
- Set up a regular knowledge sharing session internally and externally across the Axel Springer companies including Bonial, Upday etc.
- Established the open-source strategy under the idealoTech umbrella and executed it e.g. created and managed the idealoTech blog (<https://medium.com/idealotech-blog>), idealo's Github landing page and also the @idealotech channel on twitter
- My team open-sourced several projects with high business impact:
 - * image-quality-assessment (Convolutional Neural Networks to predict the aesthetic and technical quality of images.) - <https://github.com/idealotech/image-quality-assessment>
 - * image-super-resolution (Keras implementation of the Residual Dense Network for super scaling images.) - <https://github.com/idealotech/image-super-resolution>

- **Pivotal Inc.** Berlin, GER
Senior Data Scientist at Pivotal Labs 10/2015 - 10/2017
 - Leading and managing the Data Science practice for Pivotal Labs Berlin
 - Created machine learning models and put them into production for various clients
 - Supported pre-sales activities by creating demos/proof of concepts and blog articles
 - Scoped data science projects including proposal writing, resource estimations and budget allocation
 - Provided data science thought leadership, for example, helped to establish the smart apps idea and XP practices into data science like TDD (<http://tinyurl.com/gme62kr>), pair programming and CI/CD
 - Established an API First culture within the company: <http://tinyurl.com/z9kv5ae>
 - Gave talks at PyData Berlin, London, San Francisco 2016 and CF Summit Europe 2016
 - Data Scientist from 10/2015 - 06/2016
- **Accenture GmbH** Berlin, GER
Data Scientist at Accenture Digital 08/2014 - 09/2015
 - Built up internal capabilities and showcases in the area of network analytics, operations analytics, text analytics, customer analytics and data visualizations
 - Worked on setting up an analytics center of excellence for a large German airline
 - Led and co-ordinated workshops at customers to demonstrate the value of data science
 - Acted as point of contact for internal requests of various advanced analytics topics such as machine learning and optimization
 - Supported pre-sales activities by creating proof of concepts for clients in telecommunication, aviation and automotive
 - Helped to organize internal and external events such as TEDxRheinMainSalon Datanauts and LMU DataCrunch
- **Others**
 - *Various roles*
 - I'm a mentor for AI, (tech) products and leadership e.g. Springboard <https://www.springboard.com/>
 - I'm part of Google's Developers Experts (GDE) program for Machine Learning. I try to evangelize and build a community around AI and ML
 - I was a member of the program committee for Data Festival <https://www.datafestival.de/> for several years
 - I've worked for my family's business for years where I managed several things from online marketing (SEO, review portals and social networks) to finance
 - * Sy Restaurant - <http://www.sy-restaurant.de/>
 - * Hotel Diana Berlin - <http://www.hotel-diana-berlin.com/>
 - * Humydo - Pham & Tran GbR - <https://humydo.com/>
 - During my undergraduate I interned at several Investment Banks e.g. Deutsche Bank, Jefferies. I gained experience in M&A, equity research and also asset management
 - Thesis Advisor:
 - * Hong Ngoc Truong. Bachelor Thesis, co-supervisor with Prof. Dr. Manfred-Erich Jäger-Ambrozewicz, HTW Berlin - University of Applied Sciences, Germany. Title: "Machine Learning: Tree-Based Algorithms", 2018

Education

- **Humboldt University of Berlin** Berlin, GER
Master of Science in Business Administration, Grade 1.9 10/2011 - 12/2013
 - Field of Specializations: Operations Research and Econometrics
 - Research Interests: Graph Theory, Queuing Theory and Dynamic Programming
 - Master Thesis: Optimal Design for an Online Dutch Auction Selling Airline Tickets
 Advisor: Prof. Dr. Kurt Helmes, Department of Operations Research, Grade 1.7
 Digital Copy: <http://tinyurl.com/jsq8hwp>
- **Berlin School of Economics and Law** Berlin, GER
Bachelor of Arts in Business Administration, Grade 1.5 04/2008 - 07/2011
 - Field of Specializations: Banking & Finance and Accounting
 - Bachelor Thesis: Best of N Concept - A Comparison of Dynamic Asset Allocation Strategies
 Advisor: Prof. Dr. Thomas Wolke, Department of Finance, Grade 1.7
 Digital Copy: <http://tinyurl.com/184jskr>
- **Study Abroad at the University of Sydney** Sydney, AUS
Exchange Program 03/2010 - 08/2010
 - Courses taken in Portfolio Management, International Financial Management, International Business Strategy, Calculus I and Linear Algebra I
- **Friedrich Anton von Heinitz Gymnasium** Rüdersdorf, GER
Abitur, AP English and Chemistry, Grade 2.5 07/2007

Cloud Native Presentation Slides with Jupyter Notebook + Reveal.js

Skills & Interests

- Computer
 - Very good knowledge in Python including the PyData stack: scikit-learn, pandas, matplotlib, XGBoost etc.
 - Working experiences with deep learning frameworks such as Transformer, TensorFlow and PyTorch
 - Very good knowledge in traditional machine learning algorithms to large language models
 - Practical experiences in solving big data problems using Apache Spark (PySpark) and MPP databases
 - Good knowledge in MLOps, DevOps and DataOps
 - Worked under a Test-Driven and CI/CD environment and constantly embraced Pair Programming
 - Experiences with Microservices, PaaS and Cloud Computing (Cloud Foundry, AWS, Azure and GCP)

- Good knowledge in SQL, Docker, Git, VIM, L^AT_EX, UNIX
- Experiences with modern frontend frameworks (Next.js, Tailwind) and obviously HTML, CSS and JS
- Industry
 - Industry experiences in Media, Telecommunications (Postpaid, LTE and VoIP), Aviation (Customer Segmentation, Safety), Automotive (Spare parts management, Aquaplaning prediction), Banking, LegalTech, Logistics and E-Commerce
- Languages
 - German (native), English (fluent), Vietnamese (beginner)
- Others
 - Taekwondo (Blue belt), Soccer (11 years Landesliga), Traveling, Literature, Cooking, History, Strategy Games
 - McKinsey Masters 2013 Regional Winner and second in the Nationals
 - e-fellows.net Scholarship

A handwritten signature in blue ink, appearing to read 'D. Treu', with a stylized flourish at the end.

Berlin, October 27, 2024
